Our search in the appropriate Copyright Office indexes and catalogs that include works cataloged from 1978 through July 1, 2025 under the title PREPARATION TO PORTAL disclosed no separate registration for a work identified under this specific title.

Title alone is insufficient information upon which to base a conclusive copyright search since titles, as such, are not copyrightable, and our records contain numerous instances of the same or similar titles which identify different works. See the enclosed Circular 33 for additional information.

Should you be able to provide the name(s) of the author(s) and/or claimant(s) of the works identified only by title, please advise.

If works such as novels, short stories, contributions to periodicals, or poems first appeared as a part of a larger work and you can furnish the specific title, the name(s) of the author(s) and/or copyright claimant(s), the issue number and/or issue date (if applicable), and the approximate year date of publication or copyright registration of the larger work, a broader search could be undertaken and a further estimate provided.
